

Pneumatic stripping machine

AM STRIP 1

Pneumatic wire jacket strippers for cables with diameters from 0,5 mm to 12,5 mm

Technical specifications are subject to change according to possible needs and without notice.

FEATURES

- Semi-automatic universal machine is suitable for small and medium series, operation resuming or special applications
- The special blades fit the majority of standard cables on the market
- Machine tooling is done in seconds without the use of tools
- To a limited extent and for small batches, the machine can be used also for cutting

OPTIONS

- Slitting units for flat cables
- Special blades
- Sensor triggering

TECHNICAL SPECIFICATIONS

	AM STRIP 1
Outer diameter	min 0,5 mm - max 12,5 mm
Flat cable width	max 20 mm
Stripping length	max 65 mm
Partial stripping length	max 250 mm
Air/Cycle (to 6 bar)	ca. 2 l
Air supply	6 - 7 bar
Power supply	220 V
Dimensions & Weight	340 x 340 x 150 mm / 12,2 kg

Conformità CE: AM STRIP 1 fully complies with all CE and EMC equipment guidelines relative to mechanical and electrical safety and electromagnetic compatibility.

Note: we recommend to submit wire samples with the application required for preliminary examination.
