

Duct cutter

DC 125

Perpendicular cut shear for plastic cable channels with thickness up to 2,5 mm

Technical specifications are subject to change according to possible needs and without notice.

FEATURES

- Simple and precise cutting of wiring ducts to length
- High-precision, burr-free cutting with no production of residue
- It enables low-noise and emission-free working
- The scale with length stop ensures the wiring ducts are cut to length quickly and with millimeter precision
- Thanks to the blade guard and dynamic cam drive, the DC 125 cuts wiring ducts safely with very little effort
- For millimeter-precise cuts of ducts up to a width of 125 mm
- 1 m dimension rail help you cut to the perfect length
- Folding blade guard for increased safety

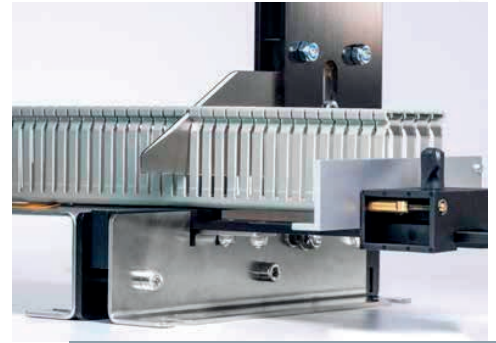

OPTIONS

- 2 m dimension rail

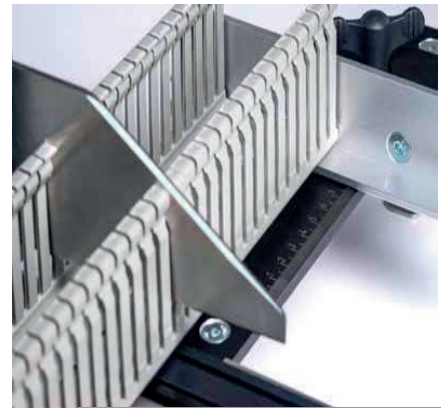

TECHNICAL SPECIFICATIONS

	DC 125
Cutting width	125 mm
Gauge length	1000 mm (2000 mm optional)
Dimension & Weight	1290 x 290 x 760 mm 10,5 kg

Note: we recommend to send samples with the application requirements for a preliminary examination.
