

Automatic programmable dispenser for technical tape

RT 7000
RT 7700

Automatic programmable dispensers for adhesive and non-adhesive industrial tape

Technical specifications are subject to change according to possible needs and without notice.

FEATURES

- 6 different programmable cutting lengths
- Automatic feed and cut to the set length
- Precise and smooth cutting
- Suitable for industrial production
- Possibility of loading two different coils
- Semi-automatic dispensing: the operator must press the START button for the device to release a new piece of tape
- Automatic dispensing: a photoelectric sensing sensor automatically releases a new piece of tape when the previous one is picked up
- Suitable for different types of tape - adhesive and non-adhesive - on the market

Programming system: RT 7000 vs RT 7700

- Ability to store up to 6 different cutting lengths (ranging from 5 to 999 mm), programmable in the order from A to F
- Each letter then corresponds to a length defined in advance, allowing the operator to use and distribute them according to the order of the tasks to be performed
- Navigation system between stored programs:
 - RT 7000 and RT 7700 Manual**
Switching between program A and program B will be exercised manually by pressing the selection key
 - Automatic RT 7700**
Allows you to alternate between different schedules and define the number of pieces to be cut differently for each program

TECHNICAL SPECIFICATIONS

	RT 7000 RT 7700
Roll diameter	min 30 - max 300 mm
Reel diameter	any
Roll width	min 6 – max 60 mm
Cut length	min 5 – max 999 mm
Power supply	230 V / 50 Hz
Unwinding speed	200 mm/s
Dimensions & Weight	116 x 213 x 140 mm / 2,5 kg

CE Conformity: RT 7000 and RT 7700 are fully complies with all CE and EMC equipment guidelines relative to mechanical and electrical safety and electromagnetic compatibility.

Note: we recommend to submit wire samples with the application required for preliminary examination.

- 3M tapes, Filament, Strong, acetate mesh, glass mesh, double-sided tape, Normex, pre-stick, cellophane, masking tape, Kraft paper tape, plastic and other

Compatible adhesive materials

- Protective film, paper tape, insulating film, aluminum tapes, copper tapes, etc.

Non-compatible adhesive materials
