

## Crimp machines

UP 60

Pneumatic bench presses for loose terminals

**WEZAG**<sup>®</sup>

Technical specifications are subject to change according to possible needs and without notice.

## CARATTERISTICHE

- Pneumatic bench press for crimping terminals up to 120 mm<sup>2</sup>
- Precision and safety due to the parallel locking mechanism
- Controlled stroke adjustment
- Electronic piece counter
- LED light illumination
- Cycle start pedal
- Easy exchange of adapters without using tools
- Special applications on request

## OPZIONI

- Crimp force monitor

## SPECIFICHE TECNICHE

	<b>UP 60</b>
Crimping force	60 KN
Air supply	6 bar
Dimensions	540 x 260 x 515 mm
Weight	60 kg

**CE Conformity:** UP 60 is fully compliant with CE regulations and EMC equipment guidelines for mechanical, electrical and electromagnetic compatibility.

**Note:** we recommend to send samples with the application requirements for a preliminary examination.
